Si è detto che la storia della cultura  
è una storia di lotta e di conquista. E la  
cultura, non è un oggetto statico, ma è  
un processo dinamico, che si evolve  
e si trasforma nel tempo. E la storia  
è un processo di costruzione di un  
mondo comune, di un mondo che  
possa essere condiviso e vissuto.  
E la cultura è un processo di creazione  
di un mondo comune, di un mondo  
che possa essere condiviso e vissuto.  
E la cultura è un processo di creazione  
di un mondo comune, di un mondo  
che possa essere condiviso e vissuto.  
E la cultura è un processo di creazione  
di un mondo comune, di un mondo  
che possa essere condiviso e vissuto.
